Instructions

Print your pattern. We like to use a pen to mark all the completed stitches.

Split your floss: embroidery floss is usually sold in skeins with 6 strands that you can easily split. If you stitch on Aida 14 count fabric, you will get the most beautiful result when using 2 or 3 strands of floss.

Start in the middle of your fabric: when you start cross stitching in the centre of your fabric you ensure you have plenty of room for your pattern.

Embroidery floss tends to get twisted as you stitch. Every once in a while, let your needle hang freely to let the thread unwind.

When you are finished embroidering, iron the back of your work with steam. Cut off any excess fabric. You can frame it, fix it in an embroidery ring or use as application.
